Introduction:

The Pakistan Institute of Development Economics was established at Karachi in 1957 and in 1964 accorded the status of an autonomous research organization by the Government of Pakistan. It is devoted to theoretical and empirical research in Development Economics in general and on Pakistan-related economic issues in particular. In addition to providing a firm academic basis to economic policy-making, its research also provides a window through which the outside world can view the nature and direction of economic research in Pakistan. Other social sciences, such as demography and anthropology and interdisciplinary studies increasingly define the widening scope of research that must be undertaken for proper economic policy and development to have sound underpinnings. Over the past 61 years PIDE has earned an international reputation and recognition for its research. Our faculty is rich and our advisory committee consists of world renowned economists such as Nobel Laureate Robert A. Mundell. In November 2006, PIDE was granted the degree awarding status and hence our top priority now is to provide quality education which is affordable but of world class standard in this region along with a truly stimulating learning environment.

PIDE Research Activates:

The PIDE core Research products are Research Reports, working papers, Knowledge Brief, Policy View Point, Policy and Research (P&R), and The Pakistan Development Review (PDR) while the other activities are

Projects and Surveys:

PIDE is promoting research culture through The 'Research for Social Transformation and Advancement' (RASTA) is the largest social sciences research network in Pakistan. RASTA's mission is to develop a research culture and network of academia and think tanks across

Pakistan producing high-quality, evidence-based policy research to inform Pakistan's public policy process.

Academic Programs:

PhD in Economics and Econometrics, M.Phil. Economics, Econometrics, Development Studies, Environmental Economics, and Business Economics, Public Policy and MS Management Sciences.

Training and Workshops, Seminars/Webinars, and Annual Conferences of the PSDE are the imperative part of PIDE research activities.

The details of above disused PIDE activities are as follows.

15. The PIDE SLUDGE SERIES (PSS)

Sludge means excessive or unjustified frictions that make it difficult for people to get things done. Frictions that make processes difficult to complete, including; excessive paperwork, unnecessary NOCs to be obtained, excessive hierarchy involved in approvals, centralized decision making and rent seeking attempts –All this costs time and money and frustrates people by depriving them of access to goods, opportunities, and services.

17. PIDE CONFERENCES/CONVOCATION/EVENTS

Pakistan Society of development Economists (PSDE) is the only Pakistani professional association of economists and other social scientists. It provides an institutional framework for professional and research development. The society was formed in 1982 and located at the premises of Pakistan Institute of Development Economics (PIDE). The Society provides a platform for academics and policy-makers for exchange of ideas on the pressing economic and social problems facing Pakistan. It provides an important forum through Annual General Meeting and Conference for economic professionals, policymakers, businessmen and various schools of interested observers for debate concerning development issues.
