WHAT IS SLUDGE IN THE ECONOMY?

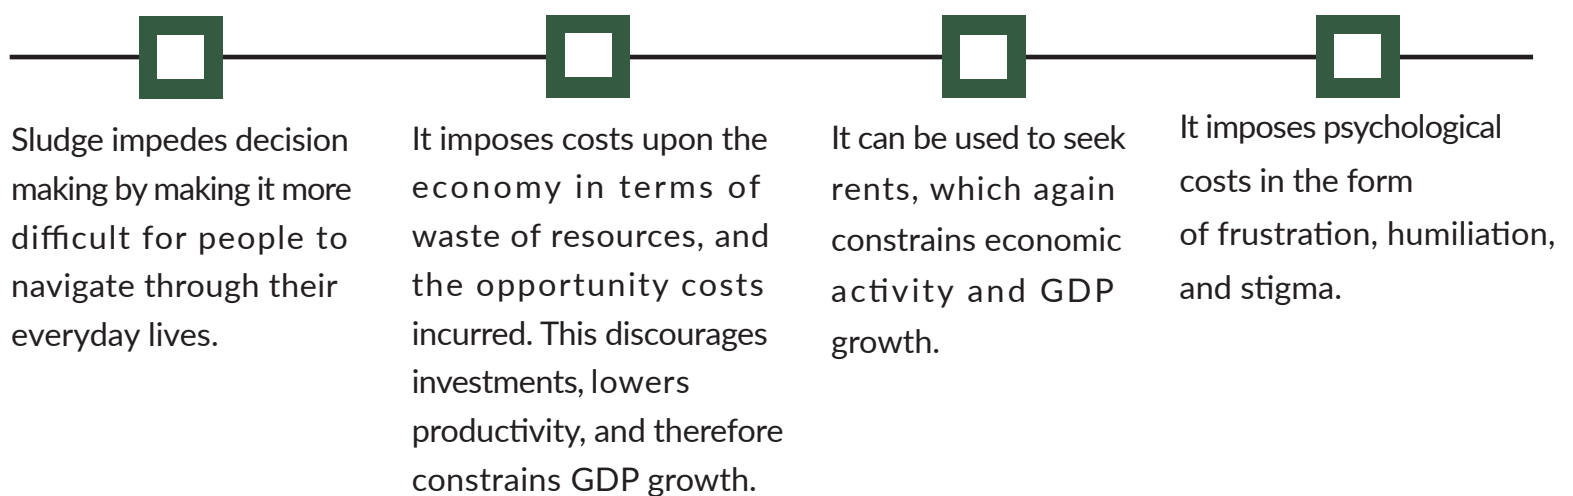

Sunstein (2020) defines sludge as;

- ⬡ Excessive or unjustified frictions make it difficult for people to get what they want or to do as they wish.
- ⬡ Frictions that make processes difficult to navigate, such as paperwork burdens that cost time and money, and which may end up frustrating people by depriving them of access to goods, opportunities, and services.

Most of the sludge consists of work not required at all (permissions etc.), duplicative paperwork and wait-time – waiting in a queue or waiting for a public official to decide.

WHY SLUDGE MATTERS?

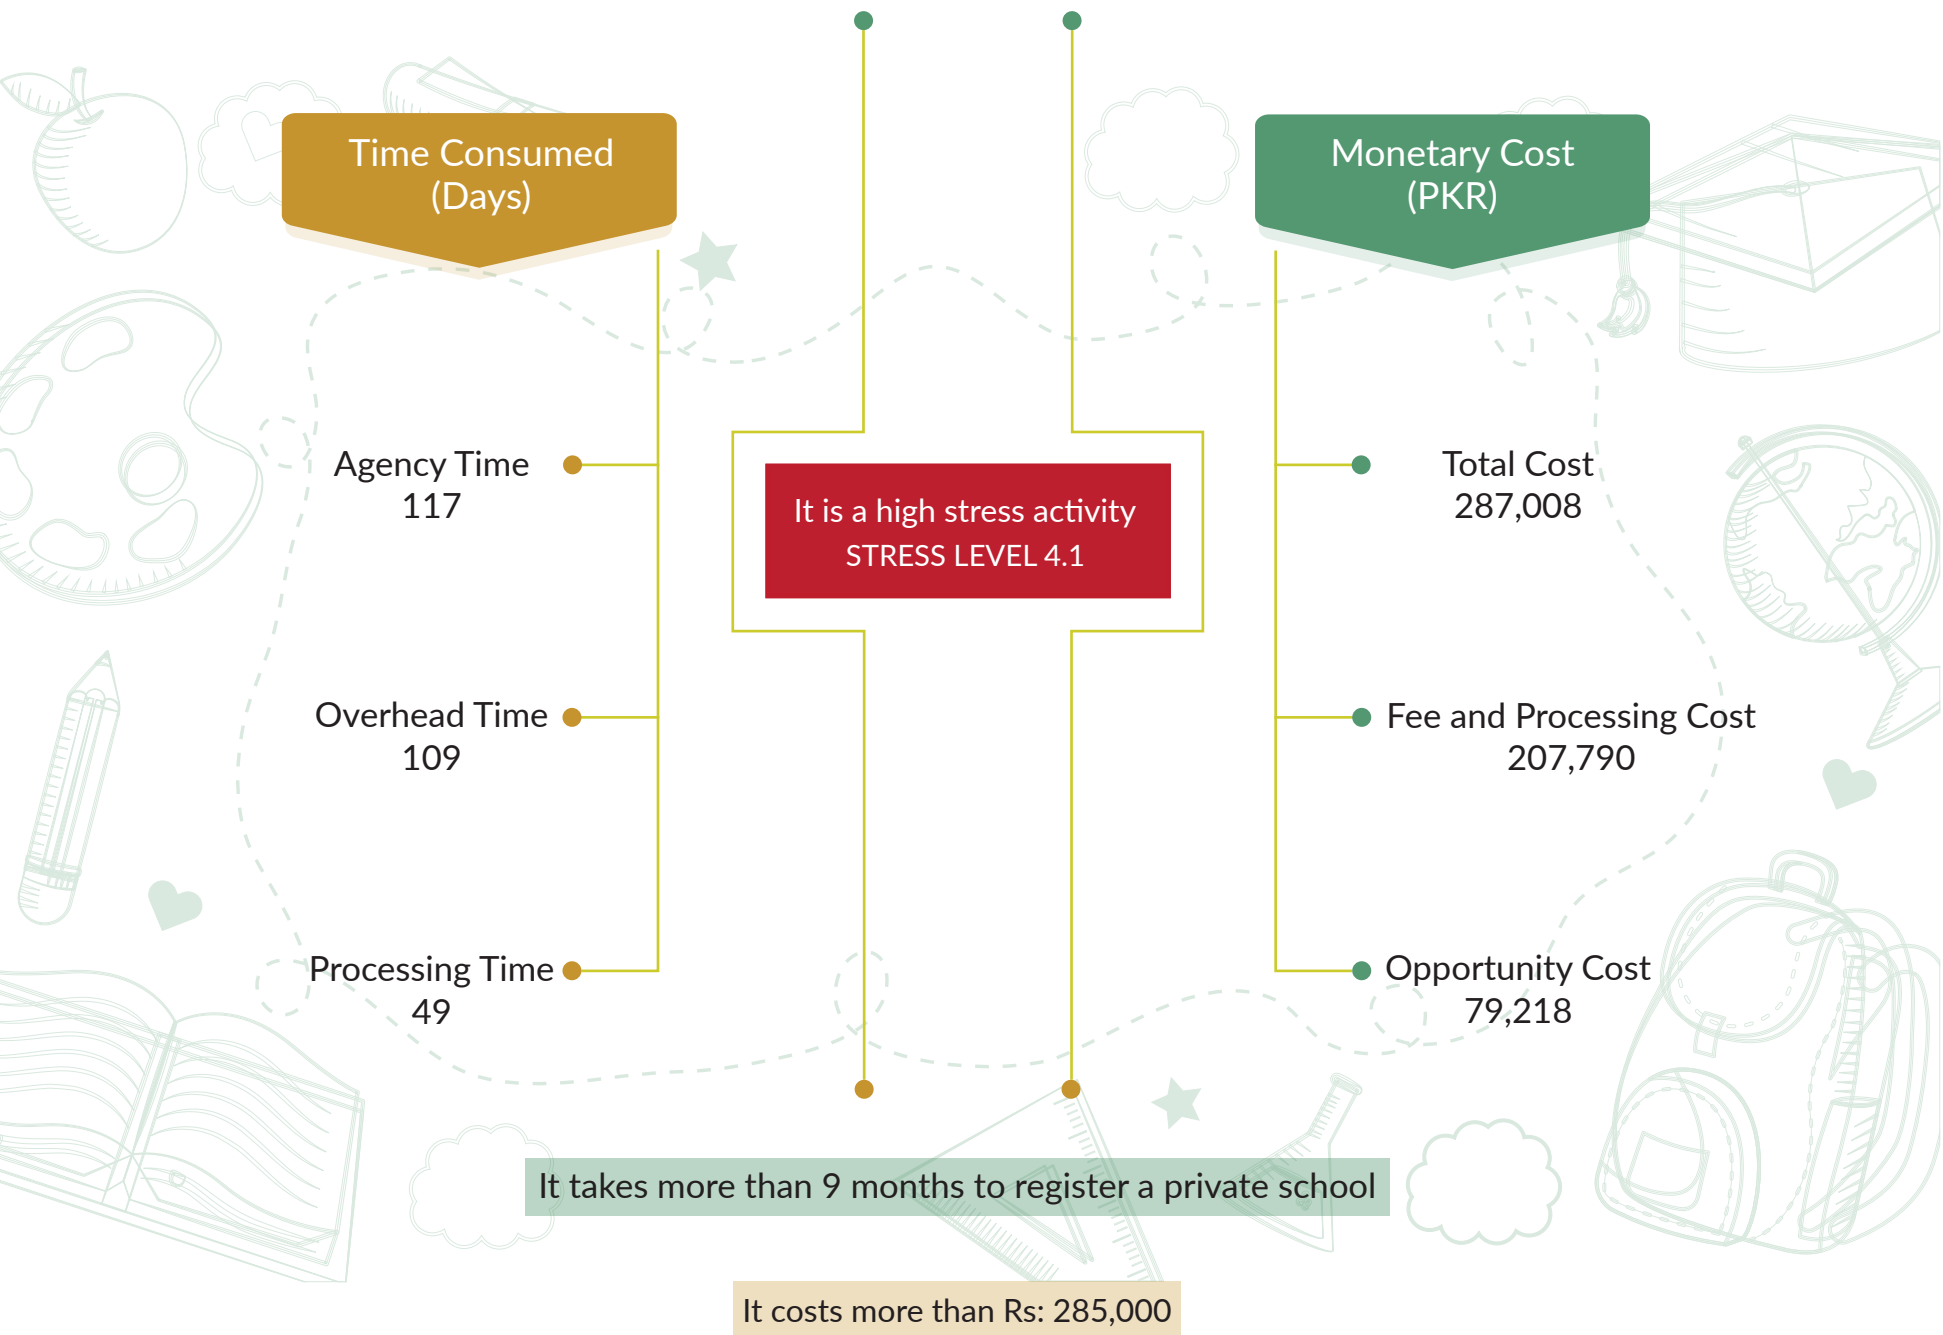

Examples of sludge include: seeking permissions absence of which affects no one, waiting for approvals (bureaucratic red tape), waiting in queues to get a task done, doing manually what is possible digitally at little cost to stakeholders, waiting for court-hearings involving cases that land in courts and securing attestations/verifications and fulfilling legal requirements (agreements on stamp papers, securing persons to sign as witness on agreements, notarize the legal documents).

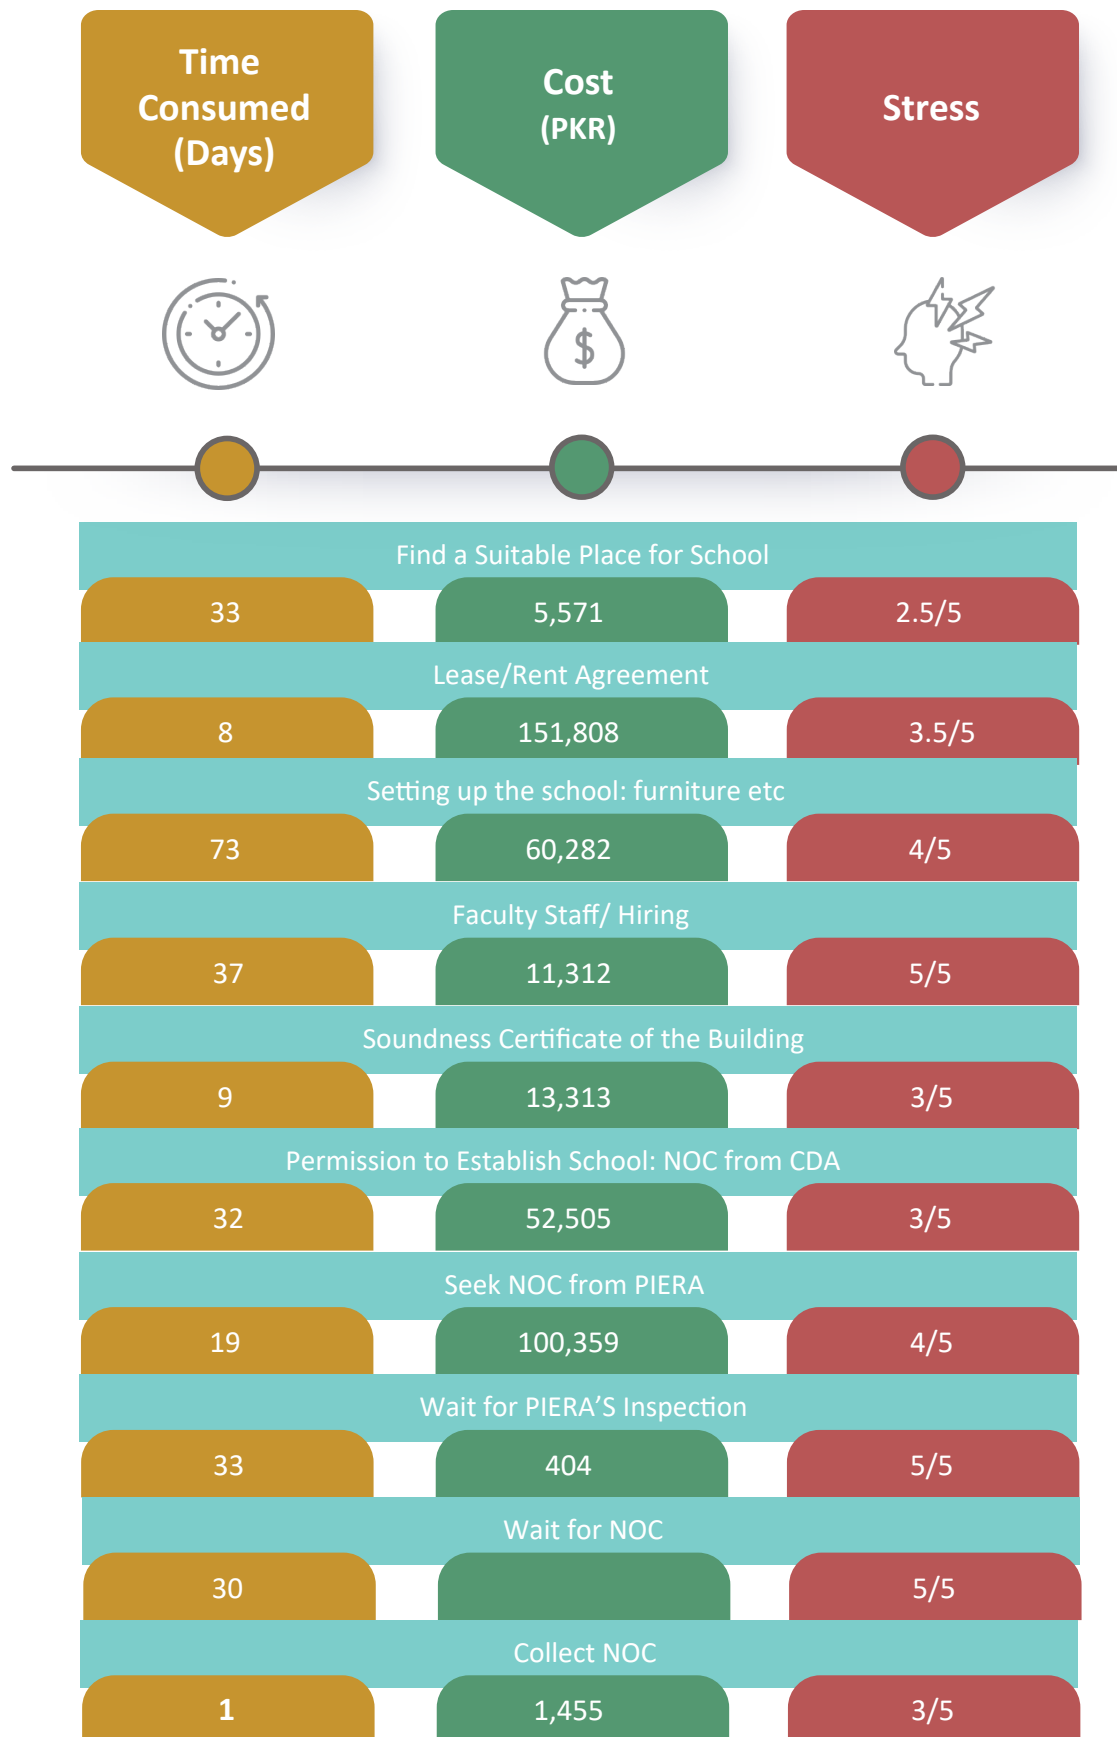

OBJECTIVES OF THE SLUDGE SERIES

SETTING-UP A PRIVATE SCHOOL

SETTING-UP A PRIVATE SCHOOL

Sources of Sludge

Seeking soundness certificate of the building in which the school is to operate from PIERA

Seeking the overall permission to run a school from PIERA, which involves a visit to the school by the PIERA's officials and a final grant of the permission after reviewing the documents and inspecting the situation on the ground

Together, fulfilling the two requirements (i.e., NOC from PIERA and NOC from CDA), can take up to 3 months and that too if the sponsors of the school are sufficiently networked with the concerned bureaucrats. Some sponsors told us that in such a situation the bribes can speed up the process.

STEPS TO BE DIGITIZED

Establishing a school in Islamabad requires seeking NOCs from PIERA and the CDA. Presently applications at both the agencies have to be submitted in a hard form. The fees in this regard are to be deposited physically in banks and a copy of the paid Challan is to be submitted along with the applications for NOCs. All this is possible electronically. Payments can be made online into bank accounts and applications can be submitted electronically to the concerned agencies

NOTES:

The information used in the report has been collected through multiple interactions and in-depth interviews with stakeholders including concerned government agencies and private entities. Applicants were key informants and were also interviewed in-depth.

ASSUMPTIONS:

1. Average travel time to any office within Islamabad/Rawalpindi is 45 minutes. Roundtrip takes 90 minutes.
2. The cost for one way trip is Rs.500/-. This is average fare of Uber/Careem
3. Applicant visiting a government agency to meet an official manages to meet the person during the said visit.
4. Stress level included in the report has been assessed based on:
 - (i) effort-level of the applicant for performing a task
 - (ii) time involved in completion of the step and
 - (iii) how crucial the step is for completion of the activity and
 - (iv) the probability that the task may not be allowed/approved by the authority concerned.

The entire foregoing assessment is based on in-depth interviews of applicants.
